

## NEW Reducing Household Toxins

Not only will you learn about what household toxins are bad and why, but what to use as replacements. We'll even make an easy multipurpose cleaner to take home! You will want to go home and clean out all of your old cleaners—imagine the room you will have and the money you will save.

*Joanna Toleno Bakken is a certified Master Recycler and has taught classes since 2003 in Oregon, California and in Minnesota on composting, gardening, recycling, household/body care toxins and more.*

1415.300 1 Session Wed  
Apr 25 7-8:30 pm  
\$19 WBSC 210

## NEW Composting is for Everyone

Garbage is everywhere! The answer is compost - not only will you be doing something good for the environment, but you can reduce your garbage going to the landfill up to 50%. Between hot composters and worm bins, you will have beautiful dirt and worm castings to make your gardens the envy of everyone - plus grow amazing produce.

Apr 18 7-8:30 pm  
\$19 WBSC 210

## Deck Building 101

Planning to build or rebuild a deck? Come learn from a master carpenter how to make it a reality! Learn to build it yourself, or to hire someone without getting taken. Discuss building codes, deck designs and types, space considerations, footings, attaching deck to the house, moisture concerns, tools needed, building materials, and more. Basic knowledge of carpentry is helpful.

*Francis Kaas is a Master Carpenter who has been building and remodeling homes for over 25 years.*

1613.300 1 Session Thu  
Apr 19 6:30-9 pm  
\$35 WBSC 120

## Garden Design

Would you like a low maintenance flower garden? Does your current garden look more like a garden of weeds? Now is the time to learn how you can create your own piece of beauty in your yard. Learn how to spice up an existing garden using easy to care for plants. Bring photos or sketches of your current garden or yard.

*Pam Larson Frink*
