

Update re: State Shutdown

White Bear Lake Area Schools is developing contingency plans so that current programs (for example Summer Programs, Extended Day Programs and Senior Programs, including Meals on Wheels) will continue to run should a short-term state government shutdown occur. The District will continue to develop plans to cover every aspect of functions and operations should a shutdown continue long-term.

The District website will be updated regularly as information becomes available. Please stay tuned, and email us at communications@isd624.org if you have specific questions or concerns.
