District's MCA-II science scores highest improvement in area

WHITE BEAR LAKE, Minn. – MCA-II Science test scores recently were released for the students in grades five, eight and high school who took the Science MCA-II, measuring student performance on Minnesota's Academic Standards. The district made gains in all three levels and showed more improvement than the state average.

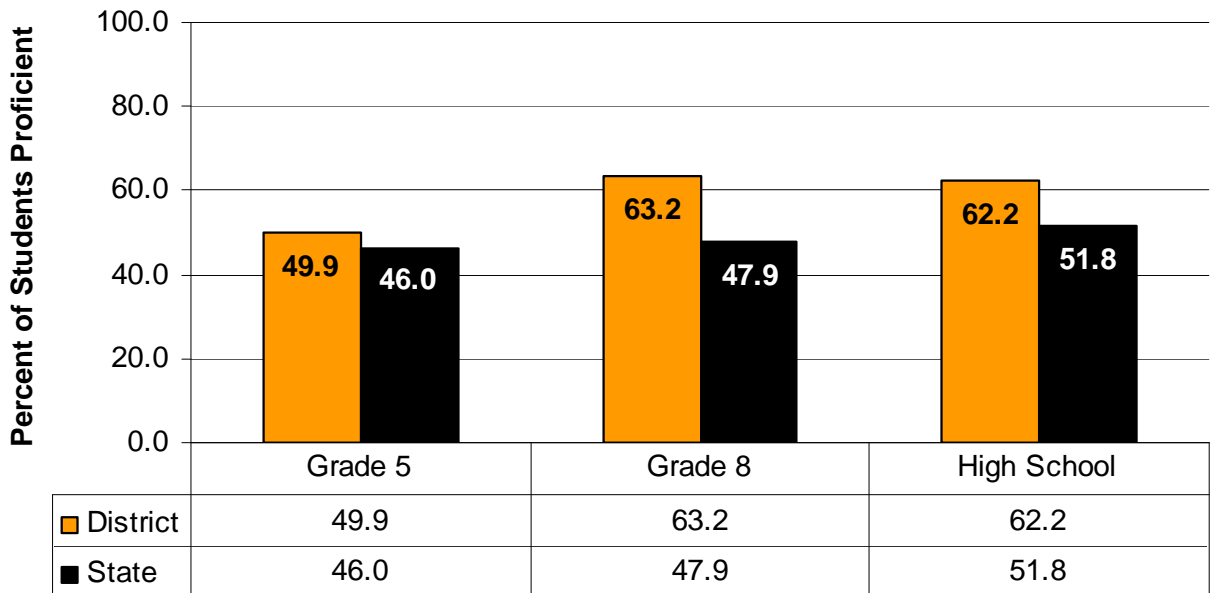

White Bear Lake Area Schools showed the greatest increase in percentage of students proficient in the area with a gain of 10%. A double-digit increase was seen in the high school and eighth grade levels. Grade five showed a gain of 9.2 percentage points.

The State will issue Individual Student Reports to those who took the test in the spring of 2010. Results will be mailed to homes along with MCA-II reading and math results in August. Those who have questions may contact building principals.
